DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless —

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1, 3 and 8-10 are rejected under 35 U.S.C. 102(b) as being anticipated by the patent to Soguel. With respect to claim 1, the reference discloses a wristwatch case comprising an outer case 1 attachable to a wristband (see col.3, line 56), inner case housing a timepiece movement (see col. , line 54), the inner case being movable in a vertical direction relative to outer 1 case(see col. 2, lines 67ff) between an upper stop position 3 and lower stop position 7.

2. Regarding the remaining claims, the reference further discloses an elastic member 4 extending between the inner and outer cases for stopping movement of the inner case at the two stop positions, an opening in the outer case for accommodating the inner case (see col. 2, line 52), protrusions in the inner and outer cases

corresponding to the upper and lower surfaces of grooves 6,7, these surfaces limiting the movement of inner case 2. With respect to claim 10, ring 4 is made of compressible material to allow movement of inner case 2 (col. 3, line 1), and thus would also allow rotation of the inner case relative to the outer case by sufficient rotational force.

3. Claims 2, 4 and 6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. Claims 11-29 are allowed.
